

How To Make A Samurai Hat

Materials Needed:

1 sheet of 24 in x 24 in butcher paper

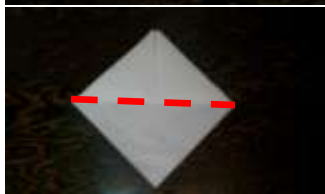

Crayons or markers

Step 1: Take your sheet of butcher paper and fold it in half diagonally to form a right triangle.

Step 2: Fold one corner of the triangle over so that it touches the center corner. Repeat this step with the other side. Your paper should now be folded into a diamond shape.

Step 3: Fold both tips up (at the dashed line pictured on the left), so that they go to they touch the top of the diamond.

Step 4: Fold each of the upward-pointing tips outwards.

Step 5: There are now two large triangles on the bottom. Fold the uppermost triangle most of the way up over the top half of the hat.

Step 6: Fold the remaining stop of the triangle up and over the top part of the hat to create the hatband.

Step 7: Fold the other large triangle up and into the hat.

Now you may decorate your hat with crayons or markers!
